

NBW HUT

WALK 21

Distance	11km
Duration	5 hours
Grading	Medium – Hard

Walk Description

While this walk is to a seldom visited hut on the Baw Baw plateau, the route we will take passes a number of the iconic points of interest to be found on the eastern end of the plateau.

We start this walk at the Mt Erica car park and travel in a northerly direction along the Australian Alps Walking Track for 2 km until we reach Mushroom Rocks. This is an ideal place to have morning tea and explore these giant granite boulders.

From here we continue along the Australian Alps Walking Track until we reach a cleared area. Leaving the Australian Alps Walking Track and veering to the right we contour through light bush until we reach NBW hut. After checking out the hut we will travel off track to the summit of Mt Erica. At this stage we re-join the Australian Alps Walking Track and head in a south westerly direction back to the car park.

Getting to the start

Start and finish at the Mt Erica car park. This involves 8km car travel from Rawson to Mt Erica Road then 5km to the car park.
